

Dear Hiring Team,

I am writing to express my interest in the Oil and Gas Mineral Title Abstractor position at Country Roads Minerals, LLC. With a Bachelor of Science in Petroleum Engineering from Marietta College and extensive experience in the oil and gas industry, I am eager to bring my skills and dedication to your respected company.

My diverse oil and gas background align well with your requirements, and I am excited about the opportunity to contribute to your team. In my previous roles, I have consistently demonstrated a strong work ethic and a keen eye for detail, ensuring the accuracy and completeness of mineral title reports. I am continually seeking new opportunities to enhance my skills and expand my knowledge.

In my role as a Field Engineer at Creedence Energy Services, I optimized production chemicals for oil and gas wells, ensuring efficient operations and maximized output. My expertise in utilizing PowerBi for data logging and trending allowed me to make data-driven decisions, enhancing overall productivity. I successfully managed field technicians and day-to-day operations, while also creating customer-facing monthly presentations that communicated our progress and results. My ability to implement chemical changes based on analytical trends significantly contributed to the improvement of our production processes.

Previously, as a Field Analyst at KCF Technologies, I serviced frac locations to identify and reduce asset failures, contributing to safer and more efficient operations. My role involved diagnosing customer needs based on downtime and their internal goals, and training frac crews on software to aid their preventative maintenance programs. I ran MachineIQ software to alleviate human error and increase pump life, while also managing accounts as a customer-facing representative.

Additionally, my experience as an Artificial Lift Technician at Diamondback Energy, Inc. equipped me with skills in shooting fluid levels, diagnosing well issues, and optimizing rod pump wells based on data analytics and presentations on issues and solutions.

Thank you for considering my application. I look forward to the possibility of discussing how my experience and skills align with the needs of your team. Please feel free to contact me at 111-867-5309 or via email at me@gmail.com to schedule an interview.

Sincerely,

Sherry McCoy
